**MAGELLAN DATA AND MAPPING STRATEGIES APOLOGIZES FOR NOT INCLUDING BILL JOHNSON AND OTHER DECLARED US SENATE CANDIDATES IN KENTUCKY GOP PRIMARY SURVEY**

---

**Louisville, CO** – Magellan Strategies CEO David Flaherty today contacted US Senate candidate Bill Johnson and apologized to him personally for not included his name in Magellan’s February 18<sup>th</sup> survey of likely Republican primary voters. Magellan CEO David Flaherty stated “It was a gross oversight on our part and we sincerely apologize for any problems this may have caused to the Johnson, Grayson and other Republican US Senate campaigns in Kentucky.”

Flaherty continued, “The US Senate ballot test question from our February 18<sup>th</sup> survey is not accurate because Bill Johnson and other declared candidates were not included in the question. Without Bill Johnson and the other primary candidates included in the ballot test question the results are obviously not an accurate reflection of the Republican primary ballot that voters will choose from on May 18<sup>th</sup>.” David Flaherty also contacted the Try Grayson Campaign to apologize for error.
